

Marketing Intern

Date: Feb 4, 2021

Y-Fi Labs, provides digital experience monitoring services to residential customers. It is a first of its kind, enterprise-class IT network solutions and monitoring services firm servicing homeowners and renters.

Rapid growth in internet-connected home devices, the upward trend in work-from-home situations, limitations in internet bandwidth, and the increasing complexity in the Wi-Fi, IT, IoT (Internet of Things) space has triggered a need for professional digital experience monitoring services which Y-Fi Labs has set out to fulfill.

We are looking for a talented, multi-faceted marketing intern who can be a true spokesperson of Y-Fi Labs' ethos to our client. Training and mentoring will be provided at every step of the process.

The marketing intern's job responsibilities include;

- Under staff guidance, administer company updates, promotions, and messages on social media platforms including, facebook, instagram, linkedin, twitter, etc.
- Analyze the performance of targeted marketing campaigns.

Work hours and benefits;

Flexible work hours. Weekends and holidays will be relatively busier than weekdays. The internship is unpaid. However, it will be structured to meet college credit requirements.

Requirements;

- Strong communication skills
- Creative and graphic design skills, and
- Experience with social media platforms and running campaigns.

Education and experience requirements;

- High school diploma or equivalent
- Experience in customer service
- Interest in technology, gadgets, and the internet.
